

2010 Brant Wildlife Festival *International Year of Biodiversity*

Night Skies – Stargazers Astronomy Night

Saturday, March 6

7 pm – 9 pm

Meet at the end of View Road, Qualicum Beach

Pre-register \$5 per person

Note: clear skies only (if overcast this event will go on March 12)

We have lost the experience of looking at the dark skies because most people live in cities and towns, which are badly affected by light pollution. Some might be able to find the Moon, the North Star or the Dipper but most of us are unable to identify any constellations at all because we are rarely in a position to consider them at all

See stars and constellations as you have never seen them before, learn about night skies in the Northern hemisphere, and your connection to the universe, with David Prud'homme. Dress Warm.

Space is limited

To reserve a spot for Night Skies – Stargazers Astronomy Night please contact Robin Rivers at 1-866-288-7878 ext. 226 E-mail rrivers@naturetrust.bc.ca or go to our website at www.brantfestival.bc.ca
